Rice Warner Actuaries announces senior appointment

Rice Warner Actuaries is pleased to announce the appointment of Ralph Collins as a Senior Consultant.

Ralph will be based in Brisbane and will be responsible for servicing existing clients and developing the Queensland business. He will focus on superannuation consulting but will also assist our life insurance practice.

CEO Michael Rice is pleased to welcome Ralph at a time when the firm is experiencing strong growth. "There is a strong demand for our consulting advice and research in Queensland. Ralph's skills and industry knowledge will be invaluable for our superannuation clients."

Ralph, a qualified actuary, has more than 28 years experience within the financial services industry, including roles with Sunsuper and AMP Society. At Sunsuper, he was responsible for the Client Relationship and Financial Planning teams. In that time he was responsible for building a team to provide phone-based financial planning advice and the development of Sunsuper's new Retirement Income product launched in 2009.

Ralph said "I am excited about this opportunity and am looking forward to working at Rice Warner. I believe my experience within the financial services industry coupled with Rice Warner's strong research and consulting capabilities will be of great help in growing our Queensland business".

About Rice Warner

Rice Warner is a leading firm of actuarial and management consultants with a focus on the financial services industry. We provide independent advice and professional research. We contribute to public policy through newsletters and government submissions which can be found at www.ricewarner.com.
